HEADTEACHER BULLETIN

9 February 2026

Mr. Jordan - Associate Headteacher

Spring Term 1

Last week, Year 11 students started their Spring Term mock exams.

Across the five days, students sat exams in the core subjects of English Language, English Literature, Maths, Biology and Chemistry. In addition to these, students who study Spanish, Geography and History sat exams.

To support them with their coursework, Hospitality and Catering students also completed a dedicated additional session, allowing them to really focus on what they needed to complete.

The preparation and focus of Year 11 students across the week was very impressive indeed. Students took the exams seriously and, although the week has been extremely wet, have lined up and followed exam rules maturely throughout.

This week, there are more core subject exams as well as Business Studies, Sociology, Health and Social Care, Child Development, IT and Sport. There are also coursework sessions for Design Tech and Performance.

Well done, Year 11!

Notices

Wednesday 11 February:
Creative and Technology Winter Showcase event. This events is happening from 5.30-6.30pm in the Creative Arts area of school. Students from across all year groups have worked hard to put together a showcase of their skills, which they are really excited about!
We are looking forward to seeing what they have been working so hard on for several weeks!

Spotlight: Careers

Mrs Smith, our careers advisor, took two trips out this week- Year 9 students visited WMG Engineering to take part in practical workshops that highlighted a range of roles and routes into the profession.
Year 10 students visited the University of Warwick to take part in a taster academic session in Biology and Life Sciences, a student budget workshop and an Esports session.
Both sessions supported careers education and provided valuable awareness into STEM pathways, real world applications and practical skills linked to future progression.
All students were exemplary in their behaviour and focus, with both providers giving us excellent feedback.

Attendance Matters

Regular attendance helps students to develop positive relationships with their peers and a sense of belonging, which is vital for mental health and wellbeing.
